

Sepsis Quality Improvement Interventions: Data, Root Cause Analysis, and Tools

Release date: 7/19/2019

Expiration date: 7/19/2020

Target Audience

This activity is designed for nurses interested in learning best practices related to sepsis prevention.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Disseminate and quantify sepsis admission and readmission data from Medicare Claims data
- Conduct a root cause analysis to determine causes of sepsis readmissions
- Discuss current quality improvement tools and resources for implementation in outpatient settings to improve sepsis monitoring

Method of Participation

To obtain credit, a score of 70% or better on the post-test is required. This activity is offered at no cost to participants. Please view the entire video, then proceed to the link below to complete the post test and evaluation. Upon successful completion of the post test and evaluation, a certificate will generate for printing and a copy is sent to your email address.
