

Resource and Action Guide

This Resource and Action Guide is intended as a resource to assist with quality improvement initiatives. It walks through each step of an improvement project beginning with problem identification and ending with the plan-do-study-act (PDSA) cycle. Each section provides resources to help generate ideas for improvement strategies, example change strategies, and metrics to monitor progress. We offer resources to help determine what issue to focus on for improvement and provide strategies and tools. This guide is not exhaustive; rather it should be used along with a thorough assessment of current activities in your organization, an understanding of your organization's operations and culture, and technical assistance available for targeted quality improvement. Please reach out to our team if you would like assistance with anything in this guide.

Putting Evidence-Based Guidelines into Action

The following sources will offer ideas for selecting an appropriate intervention or change strategy for the identified problem.

Opportunities for Action: Through our monthly Community Connect Calls we provide you with tools and evidence-based resources to support your quality improvement efforts in reducing readmissions and increasing health equity. Our team has identified specific actions you can take that will advance learning into action. There is something for everyone, some actions will take only a few minutes while others could support an entire quality improvement project.

Readmissions and Transitions of Care

National Transitions of Care Coalition (NTOCC)

Action Opportunity

- **Easy:** Review the [Safe and Effective COVID-19 Transitions of Care: Interprofessional Strategies Across the Spectrum of Illness and Healthcare Settings](#) activity description and details determine if you would like to complete this. Release date: 2/26/21, Expiration date: 2/25/22.
- **Intermediate:** Identify your care transitions and care coordination partners and invite them to complete this same activity.
- **Advanced:** Schedule a meeting with your care transitions and care coordination partners that complete this activity and identify a community action you can take based on what you learned.

AHRQ - Designing and Delivering Whole-Person Transitional Care (Most provider or community organization types can find an applicable tool here)

Action Opportunity

- **Hospital-specific:** Use Tool 1, Data Analysis to understand your *all-payer, all-condition* readmissions.
- **Easy:** Watch this 27-minute webinar from a national care transitions and readmissions expert, Dr. Amy Boutwell, [Designing & Delivering Whole-Person Transitional Care](#).
- **Intermediate:** Download and use [Tool 4: Community Inventory](#) to identify gaps and consider providers or agencies you may want partner with to ensure a whole-person plan.
- **Advanced:** Work with your community to create or update [Community Resource Guide, Tool 11](#).

Telligen QI Connect™

Partnering to improve health outcomes through relationships and data

INTERACT® (Interventions to Reduce Acute Care Transfers) for skilled nursing, assisted living, or home Health.

Action Opportunity

- **Easy:** Sign in/login to INTERACT® website, navigate to the appropriate provider type and review the tools available.
- **Intermediate:** Speak with your clinical or quality improvement director to determine if INTERACT® is being used in your organization.
 - If so, investigate if there are any other tools that might help improve low performing measures (ex. Medicare Compare).
 - If not, choose one tool and use it to evaluate your current transitions of care/patient transfer process. Is there an opportunity to update your process?
- **Advanced:** Use INTERACT® tool(s) for your next quality improvement project around one of your lower performing measures.

Reducing Adverse Drug Events (ADEs) in Communities

MATCH Toolkit for Medication Reconciliation - Medications at Transitions and Clinical Handoffs

Action Opportunity

- **Easy:** [Assembling a medication reconciliation team](#) is an important first step, use this guide to form your action team.
- **Intermediate:** Use these tools for [Designing/Redesigning a Medication Reconciliation Process](#).
- **Advanced:** The [MATCH Work Plan](#) supports the implementation and documents outcomes related to the project.

Chronic Care Management (CCM)

Action Opportunity for Physicians, Clinical Nurse Specialists, Nurse Practitioners, Physician Assistants, and Certified Nurse Midwives

- **Easy:** Research who your local Medicare Administrative Contractor (MAC) is [here](#). (The MACs process Medicare CCM claims.)
- **Intermediate:** Visit your MAC website to find local coverage and guidance for CCM services by searching the website for “Chronic Care Management.”
- **Advanced:** If you are not billing CCM services, speak with your leadership to determine if this would be a revenue-generating opportunity for your organization to consider.

Pain Management and Opioid Misuse

Action Opportunity

- **Easy:** Utilization of Prescription Drug Monitoring Program (PDMP) – Reducing Opioid Misuse
 - [PDMP: What Healthcare Providers Need to Know](#)
 - [Prescription Drug Monitoring Program Training and Technical Assistance Center](#)
 - [Colorado PDMP](#) [Illinois PDMP](#) [Iowa PDMP](#) [Oklahoma PDMP](#)

Telligen QI Connect™

Partnering to improve health outcomes through relationships and data

- **Intermediate:** Increase opioid and pain management patient, family and caregiver education
 - [Helpful Material for Patients](#)
 - [Patient Education: General Drug Facts & Information about Addiction](#)
 - [Patient, Family & Caregiver Opioid and other Drug Education](#)
- **Advanced:** Development or Enhancement of a Pain Management Program
 - Implementation of [evidence-based practice](#) for opioid prescribing and pain management alternatives
 - Complete “Easy” and “Intermediate” Action Plans
 - Become a [MAT Waivered Provider](#) (if applicable)
 - Commit to becoming a [Telligen QI Connect™ Mastermind](#) – get involved to make the change
 - [Measurement of Effectiveness](#) – track and monitor opioid prescribing, overdose, and deaths data
 - Share your successes with your [Telligen QI Connect™](#) partners – the Telligen team wants to hear from you.

Health Equity

Social determinants of health (SDOH) are structural and contextual factors that can be identified by the health care system and addressed in partnership with community resources. **Health-related social needs (HRSN)** are individual-level, adverse social conditions that can negatively impact a person’s health or health care.

Action Opportunity

- **SDOH screening and assessment tools:**
 - Office of Minority Health -[CLAS Toolkit](#) (culturally and linguistically appropriate services)
 - [PRAPARE Toolkit & Assessment Tool](#) (Protocol for Responding to and Assessing Patients’ Assets, Risks, and Experiences)
 - [HealthBegins-Upstream Risks Screening Tool & Guide](#)
 - [RHihub-Social Determinants of Health in Rural Communities Toolkit](#)
- **HRSN screening tool:**
 - Centers for Medicare & Medicaid (CMS): A Guide to Using the Accountable Health Communities Health-Related [Social Needs Screening Tool](#): Promising Practices and Key Insights.

- For more resources and tools about telehealth, visit: <https://www.hrsa.gov/rural-health/telehealth/index.html>

Model for Improvement

The Model for Improvement is a simple, yet powerful tool for accelerating improvement. This model is not meant to replace change models that organizations may already be using, but rather to accelerate improvement.

Step 1: Problem Identification/Gap Analysis

Step 2: Root Cause Analysis

Step 3: Select and Implement Change Strategies

Plan-Do-Study-Act (PDSA) Cycle

Conducting a Plan-Do-Study-Act (PDSA) to test the intervention or change strategy on a small scale and determining whether it improves the identified gap or problem may be helpful as part of piloting the change before implementing it widely in the organization.
